What is a Target Market Determination?

This Target Market Determination (TMD) sets out the class of customers that each product has been designed for and is suitable for. It sets out the target market for each product, conditions and restrictions placed on their distribution, events and circumstances that would reasonably suggest that the TMD is no longer appropriate and review periods and reporting obligations for the TMD.

This TMD does not provide any financial product advice on the product and does not take into consideration the objectives, financial situation and needs of individual customers.

The terms and conditions of each product are set out in the PDS. This TMD does not form part of the insurance contract and is not a summary of the product's terms and conditions. Customers should review the PDS before making any decision in relation to the products.

Any terms used in this TMD that are defined in the *Corporations Act 2001* (Cth) have the same meaning as in that Act.

This TMD is available to any person at <https://petinsurance.com.au/tmds/>.

- the full amount for treatment upfront to the veterinary clinic before seeking claims reimbursement for the eligible expenses, unless using the GapOnly® claims payment platform (in which case, customers need to be able to pay upfront the 'gap' payment - the 'gap' means the difference between the veterinary invoice for eligible expenses and the claim benefit calculated under the policy terms and conditions, if any); and
- any veterinary expenses above the accepted claim amount, including:
 - › the excess (where applicable);
 - › costs above the applicable benefit percentage (up to 80% of eligible veterinary expenses);
