CHANGES TO THE PDS

1. Under the heading 'Food and medication spoilage' on page 56, the heading 'Extra Cover Portable valuables – unspecified items cover' on page 66 and the heading 'Extra Cover Portable valuable – specified items cover' on page 68, add under the 'We cover' section:

See 'How we settle contents claims' on page 74 for how we settle claims under this cover.

2. In 'Motor Burnout' on page 57, above the heading 'Replacing the whole appliance' add:

Paying you

If you have already had the motor repaired or replaced when you lodge a claim, this means we are not able to repair or replace the motor or arrange for someone to do this and we will pay you the reasonable cost of the repair or replacement of the motor. This also means the second dot point under the heading 'What you must not do' on page 72 does not apply to motor burnout.

3. The paragraphs below the heading 'How we settle contents claims' on page 74 and above the heading 'When we settle contents claims we will not' on page 75 are deleted and replaced with:

When your claim for loss, theft or damage to your contents is covered, your contents may be replaced, repaired or we may pay you. We will aim to use a member of our supplier network to repair or replace damaged contents. Sometimes this is not always possible or practical and this will determine how the contents claim will be settled.

This will not be possible or practical where:

- there is pre-existing damage to your contents item(s) or it is unsafe to repair them;
- we do not have a supplier for the lost or damaged items (or we do not have a supplier available in your area);
- the lost or damaged items cannot be itemised or measured (e.g. items that have been completely destroyed, or clothing that needs to be fitted);
- there is no expertise available in Australia to repair the item (e.g. artwork);
- the contents are consumables or low value items; and/or
- replacement(s) for the contents item(s) are not available readily at a supplier(s) convenient to you.

We will tell you if this is the case and we will settle your claim by paying you, see 'Paying you' below.

How we settle will depend on the circumstances of the claim including the cost of repair or replacement, your sum insured and any lower policy limits.

If the cost of repair or replacement exceeds your contents sum insured, you will be paid your contents sum insured.

Repairing your contents

We will engage a repairer within our supplier network who is able to complete the repairs to your contents to provide a quote. If the quoted cost to repair the item is less than the cost of replacement, we will authorise the repairs.

Replacing your contents

If the quoted cost to repair is more than the cost of replacement on a 'new for old' basis or if the contents item cannot be repaired, you have the option to accept a replacement on a 'new for old' basis sourced through our supplier network. See page 75 for what 'new for old' means.

Paying you

We will pay you to settle your claim:

- If you do not accept an offer to repair the contents item, you will be paid the quoted cost.
- If you do not accept an offer to replace the contents item, you will be paid the amount of our supplier's assessed quote to replace the item through our supplier network. This may be less than what it would cost you to arrange the replacement in the market. We are able to secure supplier discounts from within our supplier network.
- If it is not possible or practical for us to repair or replace damaged contents, we will pay you the amount of your repairer's/supplier's assessed quote to repair or replace them on a 'new for old' basis.

To work out the amount of the assessed quote we will review the quote(s) provided by our supplier or if it is not possible or practical for us to repair or replace the damaged contents, the quote(s) you have provided to repair or replace the damaged contents, and assess those quote(s) to make sure that each quote is appropriate and reasonable for the scope of services or goods. This includes a consideration of the appropriateness of materials, repair method, labour and material costs and overall cost assessed to repair or replace the contents on a 'new for old' basis.

We will pay you by cheque or direct deposit into your bank account, or if available, you can choose to be paid with a voucher, store credit or stored value card.

4. On page 77 above the section 'Repairing or replacing damaged contents' insert the new section:

For additional covers or optional covers

If we pay a claim under an additional cover or optional cover, we will settle your claim in accordance with that additional cover or optional cover. For the Additional cover 'Food and medication spoilage' (See page 56) we will only settle the claim by paying you. This means that we will not repair or replace or arrange for a service.

If we settle your claim by paying you, we will pay you by cheque or direct deposit into your bank account, or if available, you can choose to be paid with a voucher, store credit or stored value card.

5. On page 28 under the heading 'Things we don't cover' delete the exclusion 'Communicable Disease' and replace with:

Communicable Disease

any loss, damage, claim, cost, expense, legal liability or other sum, directly or indirectly arising out of, or attributable to, a Communicable Disease or the fear or threat (whether actual or perceived) of a Communicable Disease.

6. Under the main heading 'Words with special meanings' delete the definition of 'Communicable Disease' on page 101 and replace with:

Communicable Disease

7. On page 87 under the main heading 'How we settle claims-some examples' under the heading 'Example 4 – Additional covers – Spoiled frozen food and Motor burnout' delete the content under the heading 'Your claim' for row 1 and replace it with: 'Cost of food', also delete the content under the heading 'Additional information' for row 1 and replace with: 'We will pay the food spoilage portion of your claim to you.'
