

AAMI Roadside Assist - Terms and Conditions

On the road, driving hazards and motoring problems can happen. AAMI Roadside Assist is a dedicated roadside assistance service for your car and is provided by International SOS Australasia (PCC), one of Australia's largest premium roadside assistance providers, 24 hours a day, 365 days a year.

Need assistance? AAMI Roadside Assist is here to help

Call AAMI Roadside Assist on 1800 154 810 and have your car's registration number and your best contact phone number handy. We'll also ask you where your car is and what's happened to it.

Safety first

If your car has broken down in a hazardous location, please tell us when you call us, and ensure you aren't exposed to danger from passing traffic.

Stay with your car

Once you've called us, it's vital that you remain with your car. If our provider arrives at the scene of the breakdown and your car is unattended, we will be unable to carry out any work and payment may be required for any subsequent callouts for the same incident. If you have to leave your car for safety reasons, please tell us when you call.

AAMI Roadside Assist benefits and conditions

Roadside Assistance

Where we can and it is safe to do so we will arrange for the rectification of the most common breakdown related problems, including inflation of a flat tyre, replacement of a flat tyre with your car's serviceable spare and jump-starting of a flat battery. Where appropriate, we may provide you with practical tips or advice, on a reasonable endeavours basis, in relation to simple car operation, any safety warnings or lights that may appear or practical information about your car.

Minor Automotive Repairs

We will arrange for minor breakdown related repairs to be carried out where we can and it is safe to do so at your car's location. However if major parts or factory diagnostic equipment is required, your car will be transported to the Nearest Repairer. The cost of repairs, including labour and any required parts, will be your responsibility.

Flat batteries

If your car's battery is flat we will jump start it or arrange a replacement battery if required. Whilst we do not cover the cost of the replacement battery, we can arrange for one to be supplied as part of our service.

Emergency fuel

If your car runs out of fuel we will arrange for the delivery of enough fuel to allow you to reach the nearest petrol station. If you drive an LPG fuelled car, we will tow your car to the nearest petrol station or nearest place of safety (see Towing). The fuel delivery is free, and the maximum value of fuel provided is \$10.

Flat tyres

If you have a flat tyre, we will change it with your car's serviceable spare wheel or transport your car to an approved tyre outlet or nearest place of safety (see Towing). Should additional services be required, these services will be your responsibility.

Lost or locked keys

Where your car's key has been lost or stolen, or has been locked inside your car, we will contribute \$75 to either arrange for the spare key to be delivered or arrange for a locksmith to attend.

In the event you insist that your car be broken into, to recover keys locked inside it or for any other reason, we will not, under any circumstances, be responsible for any resultant loss or damage that occurs to your car. This break-in service may not be offered by each of our providers.

Towing

If the car cannot be mobilised on the roadside, we will tow it to the Nearest Repairer as soon as practical. Any towing is provided free of charge up to 20 kilometres from the breakdown location within a capital city or major town, and up to 50km within a regional area. Please note that all additional towing costs and any repair costs are your responsibility.

Caravan and trailer assistance

In the event that your car is towed after a breakdown, and it had been towing your caravan or trailer, we'll arrange to transport your caravan or trailer to the same location as your car or to the nearest place of safety (see Towing). You must tell us at the time of the original breakdown call that you're towing, as our provider may be unable to transport both your car and the towed vehicle in the single call-out; you may be responsible for any further call-outs and costs.
